The bubble chart displays the relationship between the number of species (X-axis) and the number of genera (Y-axis) for various plant families. The X-axis ranges from 0 to 200, and the Y-axis ranges from 0 to 100. The size of each bubble represents the number of species. The families shown are Euphorbiaceae, Rosaceae, Fabaceae, and others. The chart shows a positive correlation between the number of species and the number of genera.
